Hi Ernie,

Thought I would keep you in the loop. The "HAMP regional water system plan information" file illustrates key factors in the alternatives analysis (i.e. treatment vs regional water system). Please let Emmanuelle and I know if you have any questions.

Mike and all,

It seems that my initial email (below) was sent without a message or the needed attachments. Those files are now a part of this message and they are intended to clarify certain elements of HAMP-related information which were noted during the 4 May USEPA-R9 conference call regarding HAMP issues. I am aware that you may already be well into your HAMP PER review and comment effort, but hopefully the attached HAMP regional water system plan information file can further assist you in that effort.

If you have any questions, please feel free to contact me at your soonest convenience.

Thanks and best regards,

**Brad**
